

**GLOBAL | INTERACTION**

## **GUS AND ALICE**

### *Mozambique*

Gus and Alice have worked with the team in Mozambique since its inception in around 2003. They work with Global Interaction under a secondment arrangement with the Baptist Union of Southern Africa.

Their support base is in South Africa, but they are very much part of the Aussie team, respected and appreciated by their team members and by Mozambican colleagues.

Gus regularly visits rural communities to tell people about Jesus, and to help them identify and address social difficulties.

Alice has the primary care of their three children, Chloe (born 28.10.02), Rachel (9.04.05) and Sarah (23.04.07). Because of their location, the Chloe does her schooling through distance education, as will the other children as they grow. Alice is responsible for supervising their schooling. She also participates in the wider team ministry as she is able. She and other women on the team regularly visit a local maternity hospital, providing support and care packages for the new mothers.
