

## **LUCY**

*Serving in Central Asia*

Lucy has a deep love for people, a great sense of humour and finds much joy in teaching. Her creativity and experience mean that her students learn a great deal and enjoy the learning process. Lucy is able to help and guide other teachers as well.

With a Master of Education, Lucy has taught in various schools in Australia, gained cross-cultural experience in Papua New Guinea when she was younger, and been a member of the Global Interaction teaching team in Central Asia since 1999.

Lucy's apartment in Central Asia has become a popular destination for students. It is a place of fun and laughter as well as a place for guidance and counsel for students facing difficult life choices and pressures. The positive impact of Lucy's life and love last long beyond the time students are at university.

In Central Asia, Lucy is part of a team moving to a different province and teaching English to the focus people group. She works with David, Lynda, Rema and Beii.
